

Portfolio Presentation and Evaluation [1 credit hour]

This module will provide an opportunity for each professional education student to present her/his final portfolio to a group of peers (and a university evaluator). Portfolios will be evaluated according to the published criteria, and a successful evaluation of an individual's portfolio will indicate that he/she meets and exceeds technology standards relevant to student's professional goals. Registration for this course is restricted to ITMA students.

Course Objectives:

- Complete an initial self-evaluation of your portfolio.
- Complete peer evaluations.
- Address any deficiencies or weaknesses by revising or including new material.
- Articulate ways in which you can continue to use portfolios on a professional and student-centered basis.
- Develop a plan for implementing portfolio use in your own practice.
- Prepare and submitted your final portfolio for review.
