Paul William Vosteen
pvos159@vt.edu

An American living abroad but studying anear (is "anear" even a word?). I have been a graphic designer for over 15 years and been creating design on the Web for more than 10 years. In my free time ... wait, who am I fooling, what free time? No, really, in my free time, I enjoy fishing, hiking, cycling and working in my garden. After four years abroad, I am looking forward to being back in the sweet Virginia breeze.

Having lived in Germany, I have picked up a bit of the lingo along the way as well as some of the culture of the local population. I have acquired a taste for "new wine" and also a deeper understanding of the writing of Matthew, Mark and Luke on that subject. I have determined to keep my mind young, ready to expand and gain what knowledge my surroundings want to show me.

Musically, I am a great fan of "music with layers". What does that sound like? Examples of music with layers is Bach, Beethoven, Satie, and Debussy. It is also music by Led Zeppelin, Pink Floyd, and Rush. Depeche Mode, Prodigy, Black-Eyed Peas, Überzone, and Sigur Rós are some modern artists who bring great layers into their music. And the list goes on ...

How else to stay young than to have a family? My wife and I have been blessed with three wonderful kids who continue to delight us as well as introduce us to their own unique world-view and culture.
